About Us

➤ ELECTRICAL

➤ MECHANICAL

At Air Control Pty Ltd, our team consists of highly qualified and industry-recognized tradespeople. We specialize in providing high-quality installations and efficient solutions to the construction industry. Our success includes the completion of large and intricate commercial and industrial projects across Australia and New Zealand. We prioritize establishing supportive client relationships by offering technical and personalized services throughout and after projects.

With a solid background in mechanical and electrical work, our team delivers comprehensive solutions for major construction projects with top-notch quality and reliable service. We strongly believe that fostering honest relationships with our clients is key to achieving successful outcomes. By engaging talented individuals and creating a conducive work environment, we ensure exceptional service and project delivery without compromising on quality.

Led by a highly experienced Mechanical Director and a Finance Director, Air Control Pty Ltd benefits from extensive global experience and national award-winning expertise. Our team prioritizes safety and well-being in every project by:

- Conducting thorough site condition analyses and monitoring
- Employing only qualified, licensed, and fully insured staff while rigorously vetting contractors and sub-contractors
- Ensuring that all equipment and installation methods comply with relevant Australian standards

Our Research and Development (R&D) and Design teams offer unique turnkey solutions to clients, focusing on creating efficient and safe environments. For us at Air Control Pty Ltd, your business continuity is crucial. That's why we are available 24/7, utilizing cutting-edge technologies and methods to ensure 100% satisfaction with every installation.

Michael Barnes
Director @ Air Control

Our Structure

Air Control understands we play a critical role in the execution, performance and outcome of your site.

For that reason, our company is structured into departments that support and audit each other to ensure accountable and reputable results.

Our team regularly train, prove competencies and specialize on their field; to uniquely bring job sites a complete “turn-key” service.

Mission

Everyday, we strive for excellence, reliability and loyalty to our client- offering a supportive and unique workplace where people thrive

Vision

To be an integral part of our client's business, providing quality, reliable and long-term solutions to their electrical and mechanical needs.

Values

To be professional, loyal, honest and transparent with our clients.

To provide a safe, open, committed and diverse workplace for our staff.

Projects

MAJOR CONSTRUCTION - SMALL PROJECTS - INDUSTRIAL -
COMMERCIAL - HOSPITALITY - SCHOOLS

Air Control Pty Ltd specialize in the following fields:

Air-conditioning installation, replacement and service
Refrigeration installation, replacement and service
Custom ventilation, VSD's and exhaust systems
Main switch board and Distribution board design and manufacturing
Civil underground upgrades
Electrical fit-offs
Fault finding and equipment analysis
Asset maintenance
24 hr support

Some of our clients include:

- Upgrading 1.2kms mains in school in 48 hour turnaround
- Replacing flood affected AC in school in 2 weeks
- Weekend turnaround of AC installation in school
- Installing 20x 22kw of AC in temporary QLD Ballet facility under budget, in 3 weeks
- Electrical upgrades in 4 schools running concurrently
- Whole school AC installation in heritage listed building
- Managing \$10 million of projects at a time
- Recycling plant interstate installed in budget despite client delays

Mechanical

Our mechanical team is made up of mechanical plumbers, electricians, AC installers, refrigeration mechanics and commissioning techs; supported by our Project Manager, Lachie.

Air Control values local labour. We employ a variety of top qualified team members, with a focus on women in trade. We also screen local sub-contractors to find the most suitable and reliable workers for your site.

Air Control is proudly PCQ Level 2 Registered with the QLD Government, a process of thorough assessment of our outstanding safety, quality and management processes, inline with our financial capabilities.

Our reputation is a reflection of our value of our clients, our respect for quality work and the appreciation of our efficient team members.

We are a top dealer with Panasonic and Mitsubishi Electric, have loyal connections with many top-quality suppliers including Daikin, AirTouch and expect a standard from suppliers and workmanship rarely seen in our industry.
